at H-Cube, driving innovation in the wearable industry using Flutter, AWS, and TypeScript.

PoliTO student team member at BitPolito as a frontend developer.

3 years university Excellence Program member.

---

## Experience

### H-Cube

Lead Full Stack Developer  
June 2023 - Present (1 year 2 months)  
Torino, Piemonte, Italia

Full Stack Developer at hCube: Managed full development lifecycle, including hybrid iOS/Android mobile application, admin dashboard, landing page and backend.

Leveraged Flutter, AWS, and TypeScript to deliver innovative solutions for the wearable industry.

Tested and managed low-level Bluetooth connections for embedded devices, including signal filtering and state management.

### BitPolito

Full-stack Developer  
January 2021 - February 2023 (2 years 2 months)  
Torino, Piemonte, Italia

Collaborated with cross-functional teams to design and develop web and mobile applications using React.js, Django, MongoDB, and Python.

Demonstrated strong project management skills by establishing deadlines, monitoring development progress, and resolving issues promptly. Created effective software solutions for businesses and start-ups, ensuring client satisfaction and success.

IMEB

Assistente di progetto

June 2018 - July 2018 (2 months)

---
